

Transport Access Program

Como Station Upgrade

Project update

June 2020

The NSW Government is improving accessibility at Como Station. This upgrade is part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

Project overview

Key features of the Como Station Upgrade include:

- Two new lifts connecting the platform and commuter car park to the underpass
- Upgraded station entry at the commuter car park, including new stairs to connect to the underpass
- Relocation of the three existing accessible parking spaces closer to the new lifts
- Upgrades and regrading of the existing ramp from Railway Road
- New accessible pathways throughout the station precinct
- Formalised kiss and ride zone on Railway Road
- New stairs to connect Como Parade to the underpass
- Improved amenities such as new male and female ambulant toilets, and a new family accessible toilet
- Improved CCTV and lighting.

Project update

Site investigations were completed in May, with detailed design of the station upgrade now in development. In the coming weeks construction personnel will be on site, preparing for the scheduled Sydney Trains track work weekend on 13-14 June 2020, when no trains operate.

Weekend work

Between **6am and 6pm on Saturday 13 and Sunday 14 June**, work will include the installation of site compound fencing and preliminary site establishment.

Some minor excavation will also take place on the footpaths on both **Railway Road** and **Como Parade**. Small sections of the footpath will be periodically closed, then reinstated as the work is completed. Pedestrians will be directed to use alternate paths and localised traffic control will be in place during this time.

Noise and other impacts

Measures will be implemented wherever possible to reduce noise associated with this work, including turning off vehicles when not in use, using non-tonal reversing beepers and stopping work for respite periods. We will monitor work activities to make sure noise levels are being managed effectively.

Please visit transportnsw.info or call **131 500** for up to date information regarding rail service updates and replacement buses during this time.

Keep in touch

We will continue to keep the community informed with regular project updates. Further information is available on the project website www.transport.nsw.gov.au/como. If you would like to be added to the project distribution list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on 1800 775 465.
