

Transport Access Program

Como Station Upgrade

Project update

August 2020

Como Station Upgrade is part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe, and accessible infrastructure. The upgrade will provide a station that is accessible to those with a disability, limited mobility, carers/parents with prams and customers with luggage.

Key features of the Como Station Upgrade include:

- Two new lifts connecting the platform and commuter car park to the underpass
- Upgraded station entry at the commuter car park, including new stairs to connect to the underpass
- Relocation of the three existing accessible parking spaces closer to the new lifts
- Upgrades and regrading of the existing ramp from Railway Road
- New accessible pathways throughout the station precinct
- Formalised kiss and ride zone on Railway Road
- New stairs to connect Como Parade to the underpass
- Improved amenities such as new male and female ambulant toilets, a new family accessible toilet, CCTV and lighting.

Site establishment and upcoming work in August

From **Monday 3 August** work will be undertaken during **standard construction hours, 7am to 6pm Monday to Friday and Saturdays 8am to 1pm**, to set up the worksite.

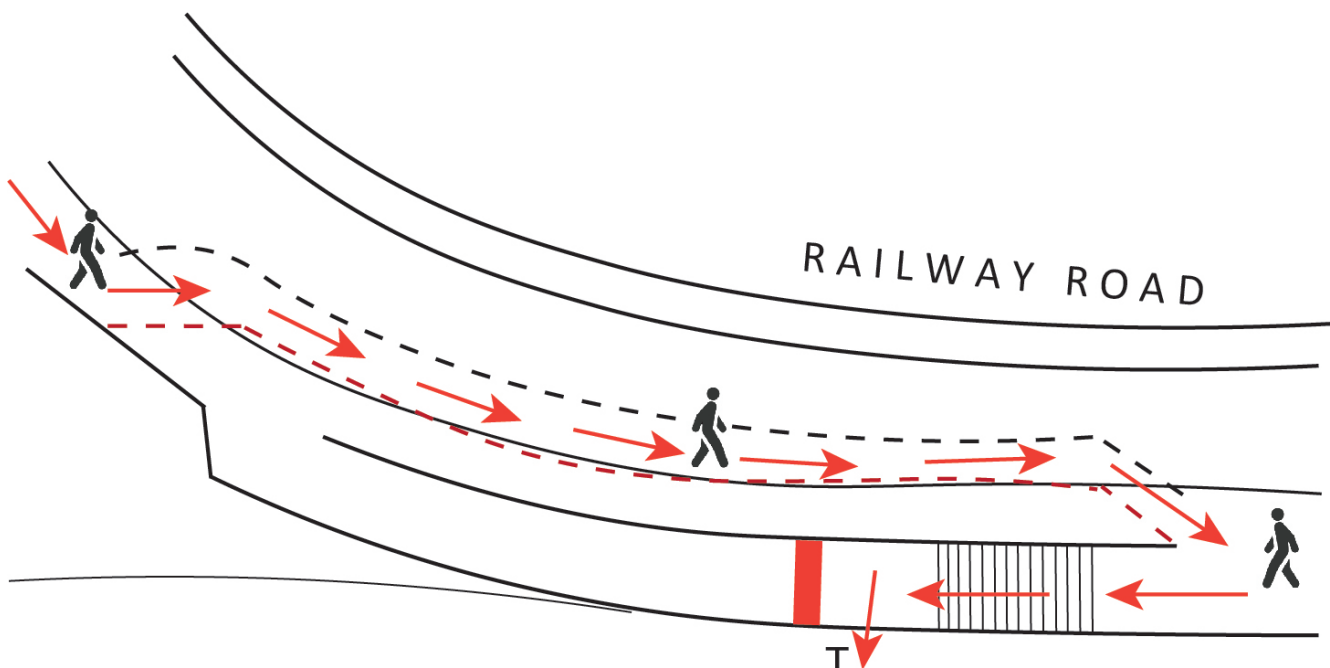

Work to establish the site compound will involve the use of a 55-tonne crane, various construction vehicles and hand tools. This compound will be located on the Como Parade side of the station within the rail corridor, as indicated by the image below.

Location of site compound at Como Station.

Monday 10 August, extensive work will commence on the station platform and the Railway Road pedestrian access ramp. After 17 August demolition work will take place on the station platform using an excavator. Other equipment to be used will include bobcats, and various power and hand tools.

Pedestrian access to the station will be maintained during standard hours via Como Parade and the Railway Road stairs. Signage will be installed and traffic controllers will be in place to assist pedestrians.

Temporary pedestrian detour on Railway Road

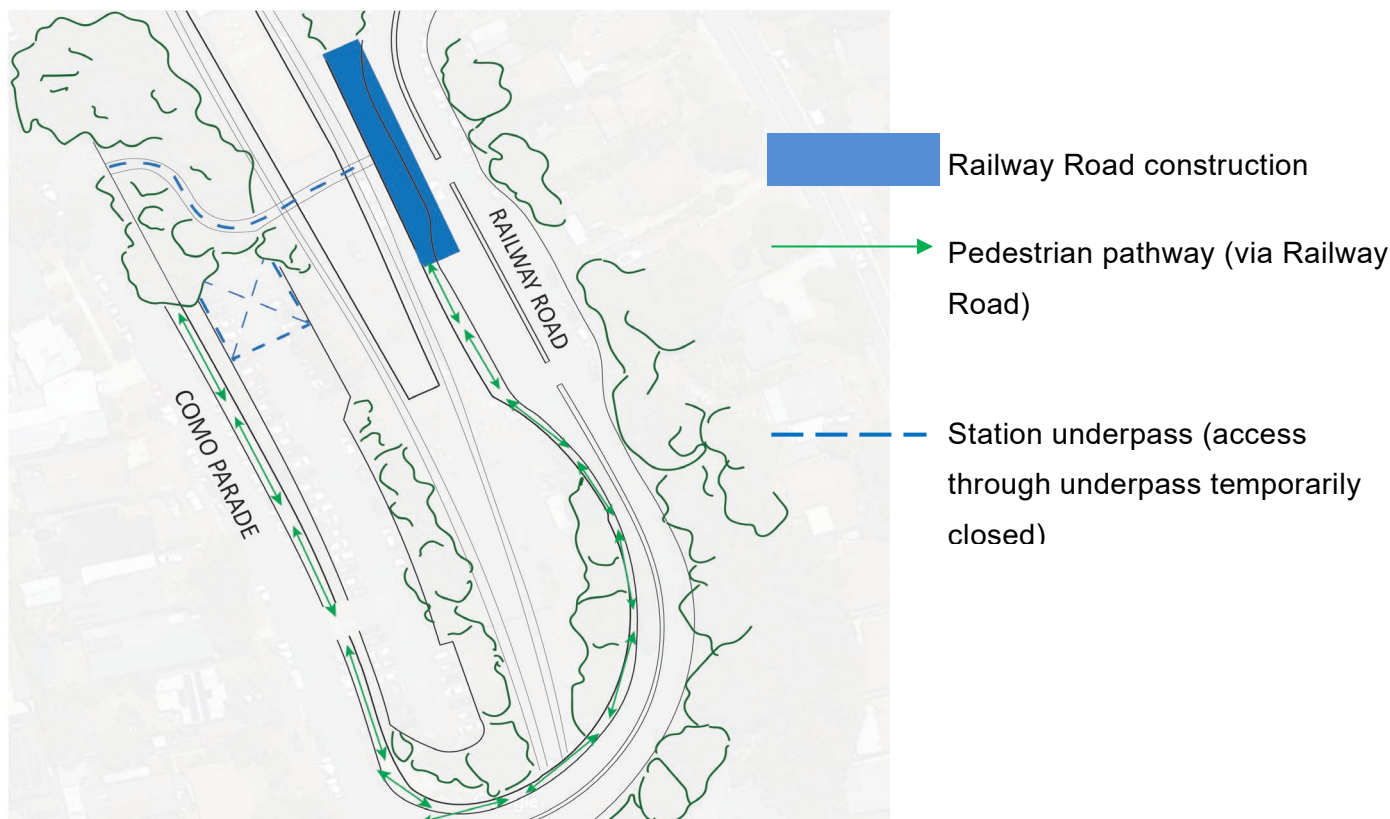

Weekend work – 15 and 16 August 2020

For the safety of our workers and the community, work will take place from **4am Saturday 15 August to 12am Monday 17 August 2020** during a scheduled Sydney Trains trackwork period when trains are not running.

The pedestrian underpass and commuter car park will also be closed while the work is completed, and a temporary detour (using Railway Road) will be in place.

The work involves removing platform material to enable the construction of the new lift shaft.

For information about rail replacement buses during trackwork, please visit transportnsw.info or phone **131 500**.

Temporary pedestrian detour – 15 and 16 August

Minimising the impacts

There may be some noise associated with this work and we understand this may be disruptive at times. We apologise for the inconvenience and will minimise impacts by:

- using noise barriers
- turning off vehicles when not in use
- monitoring noise levels
- using non-tonal reversing beepers
- stopping work to allow regular respite periods.

Temporary loss of spaces in the commuter car park

On **15 and 16 August 2020** the commuter car park will be temporarily closed to store materials and equipment.

Up to 3 spaces will also be unavailable in the commuter car park throughout August while site investigation work is underway. Signage will be installed to notify commuters of the changes.

Keep in touch

We will continue to keep the community informed with regular project updates. Further information is available on the project website www.transport.nsw.gov.au/como. If you would like to be added to the project distribution list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
