

# Transport Access Program

## Canley Vale Station Upgrade

**Project Update**

**January 2021**

Transport for NSW is improving accessibility at Canley Vale Station. The upgrade will provide a station precinct that is accessible to people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

### Upcoming work

Work activities in January include:

- ongoing relocation of station services, such as CCTV and lighting
- utility work on Railway Parade and First Avenue including services protection within the First Avenue commuter car park (up to 10 parking spaces will be intermittently unavailable)
- site clearing at the lift location adjacent to First Avenue
- demolition of station entry infrastructure on Railway Parade
- truck deliveries at the First Avenue and Railway Parade station entries (traffic control to assist when required)
- removal of the station entrance canopy on Railway Parade
- excavation and piling for lifts pits and landings.
- piling for platform canopies on Platform 2 through the First Avenue commuter car park

Equipment to be used includes trucks, grinder, elevated work platform, cranes, vacuum trucks, excavators, jack hammer, concrete trucks, grout and line pump, piling rig and hand tools.

### Weekend work in January 2021

For the safety of our workers, pedestrians and motorists, work will take place continuously on **two weekends** in January, when trains are not running and the station is closed:

- from **6pm Friday 15 January to 7am Monday 18 January**
- from **6pm Friday 22 January to 7am Monday 25 January.**

Work will include:

- removal of redundant electrical poles on Railway Parade
- tree removal on Railway Parade
- double lane closure on Railway Parade
- construction of footings for the Platform 1 lift landing
- protection of services, drainage, sewer and utility work
- excavation and piling work for lifts pits and landings on platforms 1 and 2
- removal of the station entrance canopy on Railway Parade
- piling for platform canopies on Platform 2 through the First Avenue commuter car park (up to 10 parking spaces will be intermittently closed).

Equipment will include trucks, grinder, elevated work platform, cranes, vacuum trucks, excavators, jack hammer, concrete trucks, grout and line pump, piling rig and hand tools.

Traffic control and signage will be in place to assist pedestrians and motorists around the work area when required.

The work activities will be noisy at times. We apologise for the inconvenience and will minimise impacts by turning off vehicles and equipment when not in use, monitoring noise levels, using non-tonal reversing beepers and acoustic barriers.

## Access to Canley Vale Station has changed

*Pedestrian detour map at Canley Vale Station*

The main entrance to **Platform 1 and sections of the footpath on Railway Parade** are temporarily closed to enable construction work as part of the station upgrade. Hoarding has been installed around work areas and intermittent lane closures and pedestrian detours on Railway Parade will be in place when required. Traffic control will be on site to direct pedestrians around the work areas.

Both Platform 1 and the footbridge can be accessed via the existing alternate station ramp entrance on Railway Parade. These changes will be in place until mid 2021.

## Temporary bus stop relocations and parking impacts

The station bus stop on Railway Parade is temporarily closed until mid-2021 while station work is carried out.

Day time and school service buses have been relocated to Canley Vale Road across from Clifford Avenue. Night bus services and rail replacement buses have been relocated to Railway Parade, northeast of the alternate station entry.

Traffic control and signage will be in place to assist pedestrians and motorists around the work area when required.

**Two timed parking spaces in front of 43 Canley Vale Road will be temporarily unavailable** until mid-2021 to temporarily relocate a bus stop. 10 spaces within the First Avenue commuter car park will also be unavailable during January only. Alternative parking is available on surrounding streets and in the public car park located on Fornasier Lane.

Please allow extra travel time and follow the instructions of traffic control staff and signage throughout the duration of this work.

Please visit [www.transportnsw.info](http://www.transportnsw.info) or call **131 500** for up to date information regarding service updates and replacement buses during this time.

## Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

For the safety of staff, rail customers and the community, some work will be completed outside standard construction hours. Nearby residents and businesses will be notified before any work outside these hours takes place.

## Keep in touch

We will continue to keep you informed with regular project notifications and frequent online updates published to the project website [www.transport.nsw.gov.au/canleyvale](http://www.transport.nsw.gov.au/canleyvale). If you would like to be added to the project distribution list, or for more information on the Canley Vale Station Upgrade, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
