

Transport Access Program

Bexley North Station Upgrade

Project update

July 2021

Image: The new precast concrete concourse, structural steel lift shaft and canopies were installed at Bexley North Station in June.

Upcoming work

The Bexley North Station Upgrade is progressing well, with the new concourse and stairs opened in June. Construction activities will continue in July, including:

- installation of services on the platform, in the Kingsgrove Avenue commuter car park and rail corridor
- installation of cladding on the platform and new concourse
- concreting work to level the new concourse
- footpath upgrades on the western side of Bexley Road, between Shaw Road and Kingsgrove Avenue
- refurbishment of the platform building, including conversion of the existing female toilet into a unisex ambulant toilet
- excavation, concreting, and pavement work in the Kingsgrove Avenue commuter car park
- delivery of materials and equipment.

Equipment to be used includes trucks, concrete trucks and pumps, concrete hammers, excavators, rollers, small mobile cranes, power and hand tools.

For project information call **1800 684 490**,

email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/bexley-north

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

Night work

From **8pm to 7am on weeknights in July**, work to upgrade the western footpath on Bexley Road and concreting on the new concourse will continue. This work will be carried out for no more than two consecutive nights per week and is expected to be completed in August 2021. Residences in close proximity of the work will be notified before work takes place.

Footpath and lane closures will be in place to ensure work can be carried out safely. Traffic control and signage will be in place to assist pedestrians and motorists with these changes.

Equipment to be used includes excavators, concrete hammers, delivery trucks, concrete trucks and pumps, lighting towers, power and hand tools.

Kingsgrove Avenue parking and access changes

To create a safe working area for construction of the access ramp and car park upgrades, the following temporary parking and access changes will continue:

- temporary closure of the Kingsgrove Avenue Commuter Car Park **until late 2021**
- temporary closure of up to 20 car parking spaces along the rail corridor boundary fence
- temporary lane width reduction.

While concreting work is being completed on the new concourse, pedestrian access will at times be restricted to one side of the new lift. Staff will be on site to assistance customers using the concourse during this time.

For project information call **1800 684 490**,

email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/bexley-north

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

Motorists, please allow extra travel time and follow the direction of signage including reduced speed limits while temporary changes are in place.

Meet your station Duty Manager

Tome Mitreski, Station Manager – Bexley North Station

How long have you been in your role here at Bexley North Station?

Four and a half years.

What are some of the highlights for you in that time?

I am proud of my efforts with the Customer Area Manager to set out that station in a workable tidy layout. I have worked hard to seek internal changes to the building to ensure we can provide a great service to our customers.

Before I started here, there were no permanent staff managing the station. With a strong vision and goal, I have been able to make changes with the support of my management team. They have taken on board feedback, and the results are shown here.

I have also worked to collate historical photographs of the Station for display within the building. I have snapshots in time from 1957 through to a bright rainbow enveloping the station building taken in 2020.

How long have you been with Sydney Trains?

40 years this year. I started working here in my youth. Friends who worked at Sydenham Station encouraged me to apply for the role. I sat my exams at the Philip Street Circular Quay offices. My first station was Revesby and I have loved working with diversity of customers, people from different backgrounds with different stories.

You have collected a wide range of historical items here within the Bexley North Station building. What is your favourite item and why?

The timetable board for sure. It was very important to me to gather items to reflect the past life of the Station here for us. It inspires us.

(Note: timetable board is not the Bexley North original)

How has the construction work to upgrade the station been for you and the customers?

All customers are happy and looking forward to the upgrade. It has been fantastic to work with Transport for NSW and their delivery partner Arencos during the work. They are great in communication with me and it is two-way, the team act on suggestions from myself and the staff too. All good signs that things are progressing well. The construction team are good operators which has meant no issues for myself and the station staff or customers.

What are you looking forward to with construction due for completion later this year?

Looking forward to smooth running at the station for our customers. All the work behind the scenes and the investment to improve the station leads to a great feeling (for me personally) for coming to work each day.

Station toilets

The existing female toilet in the station building is temporarily closed until late 2021 to enable refurbishment of the station toilets. The former male toilet has been refurbished and will operate as a unisex toilet during this time. Once the project is completed, the station will feature a new family accessible toilet and a unisex ambulant toilet.

Construction hours

Standard construction hours are from 7am to 6pm every day, including public holidays.

We understand extending construction hours to include weekends and public holidays may cause disruption, with all efforts made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Where weekend and night work is required, measures will be implemented to reduce impacts wherever possible, such as turning off vehicles when not in use, positioning construction equipment as far away from residential areas as possible, using non-tonal reversing beepers, and monitoring noise levels.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent updates published to the project website transport.nsw.gov.au/bexley-north.

If you would like to be added to the project distribution list, or for more information on the Bexley North Station Upgrade, please contact projects@transport.nsw.gov.au or call the Project Infoline on **1800 684 490**.
