

Transport Access Program

Bexley North Station Upgrade

Project update

October 2021

Above: Artist's impression of car park upgrades as part of the Bexley North Station Upgrade.

Finishing touches at Bexley North

The Bexley North Station Upgrade is nearing completion and our final stages of construction will continue during October.

Work will continue on our footpath upgrades on the western side of Bexley Road, which are almost complete, along with further finishing work on and around the station.

The safety and wellbeing of our workforce and the wider community is our highest priority. These works are in line with the current Public Health Orders and a COVID-19 Safe plan is in place, including masks and QR codes.

We encourage you to subscribe to our project email distribution for the latest information, by calling us on 1800 684 490 or emailing projects@transport.nsw.gov.au.

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

Upcoming work

The Bexley North Station Upgrade is progressing well, with footpath upgrades on the western side of Bexley Road almost complete. Construction activities will continue in October and include:

- finishing works on the platform, new concourse and stairs
- continued footpath upgrades on the western side of Bexley Road, between Shaw Lane and Kingsgrove Avenue
- landscaping and installation of street furniture in the Kingsgrove Avenue commuter car park
- delivery of materials and equipment.

Equipment to be used includes trucks, power tools and hand tools.

Kingsgrove Avenue parking and access changes

To create a safe working area for car park upgrades, the following temporary parking and access changes will continue during October:

- temporary closure of the Kingsgrove Avenue Commuter Car Park
- temporary closure of up to 20 car parking spaces along the rail corridor boundary fence
- temporary lane width reduction.

Motorists, please allow extra travel time and follow the direction of signage including reduced speed limits while temporary changes are in place.

Station toilets

The existing female toilet in the station building will remain temporarily closed in October to enable refurbishment of the station toilets. The former male toilet has been refurbished and will operate as a unisex toilet during this time. Once the project is completed, the station will feature a new family accessible toilet and a unisex ambulant toilet.

Construction hours

Standard construction hours are from 7am to 6pm every day, including public holidays.

We understand extending construction hours to include weekends and public holidays may cause disruption, with all efforts made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Where weekend and night work is required, measures will be implemented to reduce impacts wherever possible, such as turning off vehicles when not in use, positioning construction equipment as far away from residential areas as possible, using non-tonal reversing beepers, and monitoring noise levels.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent updates published to the project website transport.nsw.gov.au/bexley-north. If you would like to be added to the project distribution list, or for more information on the Bexley North Station Upgrade, please contact projects@transport.nsw.gov.au or call the Project Infoline on **1800 684 490**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
