

# Banksia Station Upgrade

Transport for NSW has improved accessibility at Banksia Station. The upgrade is now complete and provides a station precinct that is accessible to people with a disability or limited mobility, parents/carers with prams and customers with luggage.

## Project completion

The community is now able to use the station's new and improved accessibility features, including:

- three new lifts to the station platforms
- improvements to the existing underpass
- new kiss and ride area and accessible parking space on Hattersley Street
- upgrades to CCTV, lighting and wayfinding signage
- modification of the existing station building on Platform 2 and 3 to provide unisex accessible toilets and a family accessible toilet
- regrading sections of the platforms
- additional platform canopy coverage on platforms 2, 3 and 4.

The project was completed as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

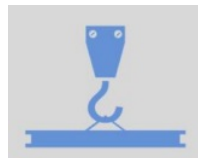

## Key facts

**9,324** workers used on the project

**79,248** hours worked

**46** tonnes of structural steel used

**710** cubic metres of concrete poured

Transport for NSW would like to take this opportunity to thank the local community for its patience and understanding while we completed this important upgrade.

Thank you.
