

Transport Access Program Bellambi Station Upgrade

Community notification January 2023

The NSW Government is improving accessibility at Bellambi Station. This upgrade is being delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe, and accessible infrastructure.

Work on the new footpaths and lighting around the kiss and ride zone continued in December.

Completed work

The car park upgrade continued in December, with new footpaths and bollards installed, garden beds and planting completed, and new lighting installed around the kiss and ride zone. Final line-marking for the new designated accessible parking spots was also completed.

Service containment work has continued up to the existing building on the platform and will be completed when the existing station building is demolished.

Upcoming work

In January the steel structure for the new station building will be installed on the platform.

Service containment work will continue in January along the rail corridor fence, next to the car park. The shelter and hoops for the bicycle parking area will be installed and the new kiss and ride zone will be opened.

Out of hours work

Some out-of-hours work will be done on **Thursday 19 January between 8pm and 4am** and from **6am Saturday 21 January and 11.59pm Sunday 22 January**. For the safety of staff and customers, this will take place during a scheduled Sydney Trains trackwork period when no trains will be running, and the station will be closed.

Work to be completed this weekend includes:

- installing structural steel for the new station building on the platform
- construction of a temporary canopy on the southern end of the existing station building
- demolition of the canopy in front of the existing ticket window.

Equipment to be used will include a mobile crane, vacuum truck, excavator, tipper truck, rail vehicles, height access equipment and hand tools.

This work may generate higher than normal levels of noise. Once noise assessments have been carried out, respite vouchers may be offered to residents immediately surrounding the out-of-hours working areas. Wherever possible, we will take measures to reduce noise including turning off vehicles and equipment when not in use, exercising respite periods during work, and using non-tonal reversing beepers.

We apologise for the inconvenience and thank you for your patience while this work is carried out.

Commuter car park

The car park will be temporarily closed from **8pm Sunday 15 January until 6am Tuesday 24 January** to allow for the safe delivery of equipment and materials for the weekend work being completed on 21 and 22 January.

Working hours

Aside from out-of-hours and weekend work listed above, we will continue to work from **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**.

All work is dependent on weather and site conditions and is subject to change.
