

# Transport Access Program Bellambi Station Upgrade

Community notification November 2022

The NSW Government is improving accessibility at Bellambi Station. This upgrade is being delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

*The concrete slab was poured for the new station building last month.*

## Completed work

Work continued in the car park last month. The dedicated accessible parking spaces were temporarily relocated to allow work at the level crossing end of the car park. The concrete slab was poured in preparation for construction of the new station building.

## Upcoming work

The next stage of the car park upgrade will start this month. The pedestrian access route to the station's entrance may change during each stage of the new car park work. Changes will be clearly marked at all times.

## Commuter car park

The commuter car park will be closed for 1 week in mid-November to allow for resurfacing work and permanent line marking to be completed. Signage will be in place directing customers to the stations entrance and commuter parking will be available on Frances Street and Bellambi Lane.

## Working hours

Most work will occur during standard hours between **7am and 6pm Monday to Friday** and **8am to 1pm Saturdays**.

Out of hours work is planned for **Thursday 17 November** between **8pm and 4am**. For the safety of staff and customers this work must be done outside normal working hours. Equipment used includes an excavator and hand tools. Noise will be monitored and kept to a minimum.

Respite vouchers may be offered to residents immediately surrounding the out-of-hours working areas.

*All work is dependent on weather and site conditions and is subject to change.*

## Contact

If you have any questions or would like more information, please contact our project team:
