

Transport Access Program

Casino Train Station upgrade

Project update March 2023

The NSW Government is improving accessibility at Casino Train Station

Transport for NSW is upgrading the Casino train station as part of the Transport Access Program. The upgrade will provide a station that is accessible to those with a disability or limited mobility, parents/carers with prams and customers with luggage.

Completed work

The ticket office, waiting room and rest rooms remain in their temporary location at the southern end of the station.

Demolition work near the station entry, veranda and surrounding footpaths at the front of the station has also been completed.

Areas will remain fenced off and temporary access arrangements will remain in place while the new surface is installed.

Work continues at Casino Station

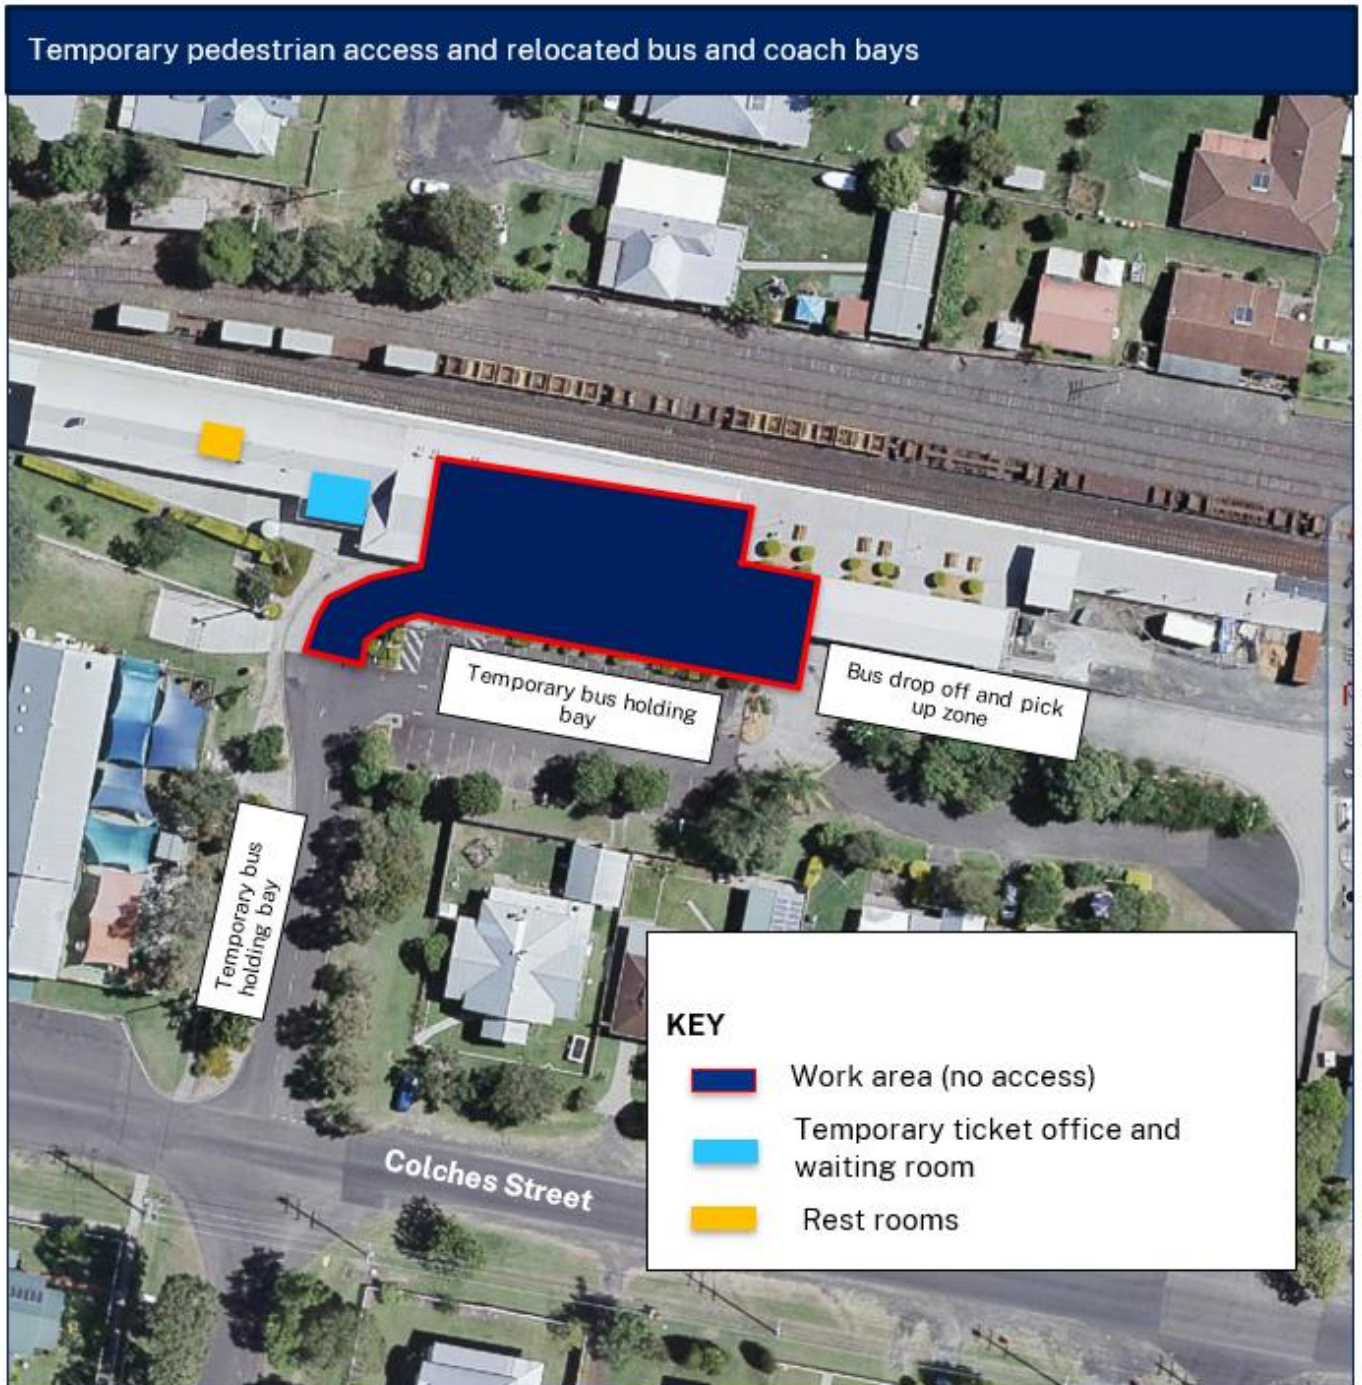

Upcoming work

The bus drop off and pick up location will be relocated further north to the end of the station carpark. Wayfinding signage will be installed to direct pedestrians and buses to the new access area.

There will be no impact to bus and train timetables while we carry out this work.

Work will continue at the front of the station, ticket office, waiting room and rest rooms. In the next two months we expect to relocate the temporary ticket office, waiting room and rest rooms back to the main building.

Please plan your journey and follow the direction of station staff and signage.

Construction hours

Working hours are from 7am to 6pm Monday to Friday, and 8am to 1pm on Saturday. No work will be carried out on Sundays or on public holidays. We will notify nearby residents and businesses in advance if we need to work outside these times.

All work is dependent on weather and site conditions and subject to change.

How will this work affect you

This work will involve use of machinery which generate noise and vibration. We will make every effort to minimise these impacts by turning off machinery and vehicles when not in use.

Traffic changes

Temporary traffic changes will remain in place to ensure the safety of pedestrians and motorists. Coach pick up and drop off locations will be relocated to allow final concrete installation to occur. Traffic control and signage will be in place to help pedestrians and motorists.

Please follow the direction of traffic control and signs.
